- **Special calibrations available.**
- **GAS DETECTION IS FIRE PREVENTION**

SPECIFICATIONS:

POWER: 120 VAC, 60 Hz
CURRENT: Less than 10 watts
SHIPPING WEIGHT: 1 pound
COLOR: White
ALARM SOUND: 88 db at 10 feet
ALARM SET POINT: 25% of LEL natural gas
SENSOR MAINTENANCE: not needed
SENSOR LIFE: 7 to 10 years
LIMITED WARRANTY: one year
SIZE: 4 1/2 X 3 1/4 X 1 5/8 inch

DETECTOR LOCATION

WHERE: Gas detectors should be placed near the source of the potential leak, namely near a gas appliance such as furnace, water heater, or gas log fireplace. Because of various odors and gases given off in cooking, place a unit near but not in the kitchen.
HEIGHT: For natural gas, which is lighter than air, place the unit about 1 foot from the ceiling. For propane or other gases heavier than air, place the unit about 1 foot from the floor.
